SAP Solutions Sales Consultant – SAP / RPA

Description

Description

The headline: ridiculously successful SAP Gold partner is looking for an experienced and hungry solutions sales consultant to take charge of their Intelligent Technologies offering. To start ASAP.

- *You*: 5 years+ experience selling to blue chip process owners and subject matter experts, ideally in an SAP environment maybe another ERP. Great chance to move into RPA – this can be trained but an appreciation of the RPA vendor landscape would be useful. A background working for an SAP Consultancy or a company selling 3rd Party Products into the SAP Marketplace such as Winshuttle or Redwood or Blackline would be ideal.

- *The role:* winning business with SAP users, helping them to automate processes using RPA.

- *The consultancy:* independent, well run – trusts and rewards its teams very well. Great culture, superstar consultants to learn with. Independent, privately owned consultancy, HQ in the UK with offices around UK & overseas.

- *The clients:* within Oil & Gas, Utilities, Chemical, Mining and Pharmaceuticals.

- *The brief*: detailed. Exploit effective marketing, webinars, events and being a valued SAP gold partner to sell pilot projects to advanced SAP users as well as bigger projects. If you tick the boxes above, looking for an opportunity where you can generate commission quickly we should arrange a conversation ASAP.

- *The money:* £70 -£80K base salary and excellent commission, OTE £160+

Right now, just contact me if you want to work with a talented, intellectually curious team of ladies and gents who get things done and very well.

Virtual / phone interviews this week and a decision can be made very quickly if you\'re the right person, ideally to start in Sept.
