Hiring organization
Peachy Digital Resources

Employment Type
Contractor

Beginning of employment
4 Jan 2021

Duration of employment
3 months

Industry
Computer and IT

Job Location
Oxford

Date posted
December 17, 2021

Valid through
30.04.2022

Description

3 month contract opportunity for a senior PHP API developer. Digital development consultancy in Gloucestershire. Outside IR35.Need a great communicator for direct client contact from time to time.

Experience:

1. **Many years' experience so you're sh*t hot**
2. **Codeignitor**
3. **MySQL Commands and db skills**
4. **REST Api**
5. **Git source control**
6. **Dev Ops (not crucial but would help)**
7. **Linux CLI**
8. **Composer package Manager**

Part of a team, but you'll work on your own troubleshooting and communicating with client and tech lead / CEO. A US client will need support so you'll need to be flexible with working hours – call me for clarification.

If you can help with system architecting as well, that would be a bonus.

START 4th Jan , 3 months – likely extensions

Interviews ASAP
